

## BEN DICKERSON ARRESTED

### He is Suspected of Having Murdered Mrs. Hughes

**Bloodhounds Placed on the Trail at Scene of Crime, Followed It Directly To Dickerson's House—He Strongly Denies His Guilt—Feeling of Indignation Over the Tragedy Is Still at Fever Heat—Full Story of How Arrest Was Made.**

Zanesville, O., June 30.—Two bloodhounds scoured from Dayton, reached the scene of the tragic murder of Mrs. Katherine Hughes, near Cooperdale, Coshocton county, yesterday afternoon, and immediately struck trail at the spring of water and followed the scent to the home of Benjamin Dickerson, less than 100 yards distant. At 6 o'clock last evening Dickerson was arrested by Sheriff Hamilton Browning, of Coshocton, and at 9 o'clock he was safely placed in the Coshocton county jail without any demonstration of mob violence having occurred. Dickerson's sister married a brother of Mrs. Hughes, the murdered woman. The prisoner is accused of the murder of Mrs. Hughes and this charge is expected to be filed against him today. He is also suspected of the burning of the Hughes home two weeks ago. The body of the murdered woman was buried last evening at 5 o'clock.

Last evening Coroner T. W. Lear, of Coshocton county, announced the finding, following the post mortem examination of Mrs. Hughes' body yesterday morning, in which he was assisted by Drs. McLain and Beall of Coshocton. Dr. Lear's official recitations are to the effect that Mrs. Hughes came to death by violence, having been choked to death by a man's hands, afterward being wedged in the for of the young sapling.

Because of the intermarrying of families and relatives in the Cooperdale settlement, a feud is predicted to arise unless speedy justice is meted out to the guilty. Circumstances and the fortunate events leading up to the arrest of Dickerson, he being away from home at the time the bloodhounds arrived there, are mentioned as being all that avoided a demonstration of mob violence yesterday.

Mrs. Hughes, the murdered woman, is said to have accused Dickerson, now a prisoner, of at one time attempting to criminally assault her. This, together with alleged affections that Dickerson is said to have had for Mrs. Hughes, are held among circumstantial events against the prisoner.

When arrested Dickerson told Sheriff Browning that he was an innocent man. He showed no signs that could be taken to show any guilt, yet offered no resistance. Dickerson was arrested a short time ago, possibly more than a year, charged with killing some cattle in the Cooperdale settlement. He was later released, the prosecution not being pushed.

At 2:30 o'clock yesterday afternoon the two bloodhounds from Dayton arrived at Trinway. From there they were driven to Cooperdale, which is two miles northeast of Wakatomika.

To the fresh water spring, where Mrs. Hughes had gone for water a little more than 25 hours before, the two bloodhounds were taken. Bellowing of the dogs started when they were placed near the marks of the scuffle here.

With their nose low to the ground, their big ears shaking in frenzy and expectancy, the hounds started in the trail. The trail led the owner of the hounds, Sheriff Browning of Coshocton, and Marshal Carter of Dresden, and the crowd of nearly 500 men, women and children to the short sapling, where the dead body of Mrs. Hughes had been found.

Loud yelps were made by the dogs at this point, they sniffing and smelling of the tracks and earth marks that told of the final death struggle. From here the trail led across a meadow on Dickerson's own farm, across a road to the home of James Dobson.

This action and turn in the trail of the dogs is accounted for by Dickerson having gone to the meadow to look over the grass, thence to the Dobson home to secure James Dobson to cut the meadow, as he is said to have done.

From the Dobson home the faithful bloodhounds followed a trail to the kitchen door of Dickerson's home. Through the house, up the stairway they pulled their owner, the officers following close in the rear. When the bed on the second story was reached, where Dickerson slept Wednesday night, the two dogs turned their heads upward. Long howls and yelps that told of their success followed.

Dickerson was not at home at this time. He had gone to Bedford, five miles distant. The mob of 500 people dispersed upon finding Dickerson absent from home.

Sheriff Browning drove immediately to Bedford. When the latter place was reached it was learned that Dickerson had returned home. He had been missed on the road, a different route having been taken. A ride back to the Dickerson home found him seated at his own table,

eating supper. He was then told he was wanted for the murder of Mrs. Hughes. In company with two officers he was driven to Coshocton.

When Coshocton was reached a crowd of more than 600 people awaited at the county jail. No demonstrations followed. It is thought the people had gathered more out of curiosity than of violent intentions. Late last night the surroundings of the county jail at Coshocton were quiet and as usual.

To your correspondent, Dickerson made this statement this morning: "I am innocent of the crime and can prove an alibi, as I was working in the hay field with my two sons at the time the murder was committed. In the morning I had been down to my spring to get a drink, not the spring where Mrs. Hughes' body was found, and then went to James Dobson's house, out the back way to the hay field, where I got a couple of mowers knives and walked across the meadow and into my yard, the back way. I did not enter the house, but busied myself in the yard before going back to the hay field."

Dickerson has retained John Adams to defend him and he will probably not be formally charged with the crime until tomorrow.

## 1000 YEARS OLD

And Eight Feet Tall are Indian Skeletons Found in the State of Maryland.

Baltimore, Md., June 30.—A number of gigantic skeletons of prehistoric Indians, nearly eight feet tall, are reported to have been discovered along the banks of the Choptank river by employees of the Maryland Academy of Sciences, and are now at the academy building. The collection comprises eight skeletons, of which some are those of women and children. It is believed the bones are about 1000 years old.

A report was submitted from the Ohio College association presenting for consideration a bill to provide a state council of education, the members to be appointed by the governor.

**WILL BRING HOME THE BONES OF PAUL JONES.**

Cherbourg, June 30.—The fleet of Admiral Sigsbee, which will convey the remains of John Paul Jones to America, arrived here this morning and was saluted.

## FIRST PERFECT FLIGHT IS MADE

BY ROY KNABENSHUE WITH HIS FAMOUS AIRSHIP THIS MORNING.

He Had Perfect Control of the Craft at All Times, Landing on Top of the Saitzer Building.

Toledo, O., June 30.—Navigating the air at the height of a mile Roy Knabenshue made the first perfect flight with his airship this morning. He went up at 9 o'clock and demonstrated that he had the ship under perfect control at all times. His entire flight was over fifteen miles and at no time was the ship unmanageable.

The airship sailed over the city, made a landing on the Spitzer building as easily as though Knabenshue was stepping from a trolley car, reascended and made his way back to his shop in a remarkably short space of time. Early this morning Mr. Knabenshue said he would make the flight to the city.

High up in the clouds appeared a small, cigar shaped object, barely visible against the white background. The airship was coming gently toward the city and apparently under perfect control.

Knabenshue maneuvered the ship with perfect ease and as it gradually grew in the spectators' sight, it was evident that he would make his landing in spite of the strong head wind against him. The popping of the engine could be easily heard when the ship was over the building, and with easy manipulation of the rudder the operator turned the ship slowly into the wind.

Starting slightly forward in the frame work in the nose of the great ship pointed downward. Slowly and steadily the airship glided toward the corner of the building.

The ship settled slowly to the roof, the frame work was grasped and the ship pulled over.

Knabenshue dismounted and received the congratulations of those on the roof. He then moved the ship over to the Huron street side of the building, reentered the cage and the ship sailed gracefully away in the air. On the return trip to the fair grounds Knabenshue made a circle around the northern part of the city, giving everybody an excellent opportunity to see the ship under perfect control.

## \$10,000,000 GIFT

Made by John D. Rockefeller to Further the Cause of Higher Education.

New York, June 30.—A ten million dollar gift by John D. Rockefeller was announced this afternoon to the General Education Board to be an endowment for higher education in the United States. The gift was accepted and it is stated that Mr. Rockefeller contemplates further large gifts for the purpose.

## LABOR FAMINE

New Orleans, La., June 30.—Louisiana is suffering from a labor famine, and 100,000 able workers can find plenty of employment. Reginald Dykers, secretary and treasurer of the Louisiana immigration association says, no able bodied man willing to work need be without employment, and he will answer inquiries.

## MAYOR DUNNE'S PLAN GOES TO COUNCIL

Chicago, June 30.—Mayor Edward F. Dunne's plan for immediate municipal ownership, by which the city of Chicago may operate a streetcar system comprising 243 miles of streets, will be submitted to the city council at a special meeting next Thursday. This fact he announced after a conference with Mayor Tom Johnson of Cleveland. "We have found that there are 123 miles of streets on which the franchises have already expired," said Mayor Dunne. "Besides, there are other franchises that will expire this year and next that will bring the total of streets available for the municipal system up to 243 miles."

**Accident and Crime.**  
Bellefonte, O., June 30.—A H. Kirkpatrick of Delaware, O., a former railway employe, fell from a Big Four freight near here and sustained fatal injuries. Soon after he fell from the train the body of a young man was found lying alongside the railway two miles from where Kirkpatrick fell. As yet there is no clew as to the identity of the youth. The wounds on the body are of a nature to indicate that he may have been a victim of foul play.

**SUCCESSFULLY FLOATED.**

Tokyo, June 30.—The battleship Peresviet, sunk at Port Arthur, had been successfully floated by the Japanese.

## TAFT REBUKES JOHN F. WALLACE

RECENT ACTION OF THE CHIEF ENGINEER IS SEVERELY CRITICISED.

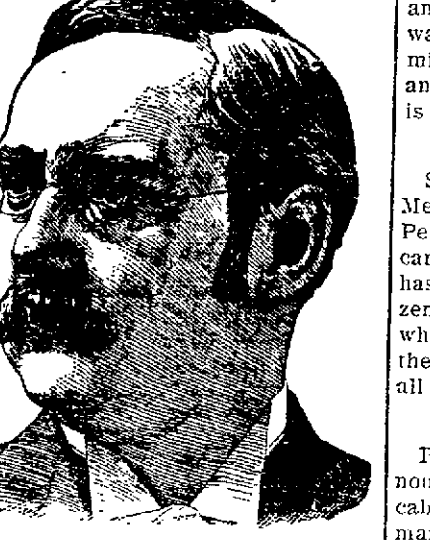

Flimsy Reasons Given for Condemning Him—Stevens of Rock Island System His Successor.

Washington, June 30.—John F. Stevens, first vice president of the Rock Island railroad, and the man who built the Rocky Mountain section of the Great Northern railroad, has been appointed chief engineer of the Panama canal to succeed John F. Wallace.

W. A. Darling of the Rock Island system has been offered the position of supervisor of railway construction in the Philippines, made vacant by the selection of Chief Engineer Stevens of the Panama canal.

Washington, June 30.—Secretary Taft in his recent conference in New York with Chief Engineer John Wallace of the Panama canal, administered a severe rebuke to Wallace, charging him with changing his position over night for "mere lucre," and with having been influenced "solely by personal advantage." The war secretary requested Wallace's resignation on the ground that "public interest requires that you tender your resignation at this moment and turn over the records of your office to the chairman of the committee."

This fact is disclosed in an official statement issued from the office of the secretary of war, which reviews the relations of Mr. Wallace with the war department and the commission since the latter body's reorganization last spring, quoting the several expressions of the chief engineer of his satisfaction with the entire arrangement.

JOHN F. WALLACE.

ment, and then gives practically a verbatim account of the conference between Secretary Taft and Mr. Wallace in New York, which concluded with the submission to Secretary Taft of the resignation of Chief Wallace. Taft's statement concludes with the president's letters to Mr. Wallace, dated Cambridge, Mass., June 28, which reads: "Your resignation as chief engineer of the isthmian canal commission, tendered in accordance with the request of Secretary Taft, which request has my entire approval, is hereby accepted, to take effect immediately."

The statement says that when Mr. Wallace and Mr. Taft met recently in New York at the former's request, Mr. Wallace told of a position he had been offered, that of president of a large holding company in New York, at a salary and stock benefits that would reach \$50,000 a year, and that as the position was an attractive one and as life on the isthmus was lonely, he found he could not decline it. Concluding, he stated that, while he was thus severing his connection with the canal work, he was willing to make up his annual report, and he would, if desired by the government, continue to serve as a commissioner, but not as chief engineer in charge of construction work on the isthmus.

## JAIL DELIVERY IS FRUSTRATED

Williamsport, Ky., June 30.—James Smith confined in the Grant county jail on the charge of housebreaking, would have gained his liberty had it not been for jailer Arnold's discovery. Smith's wife pleaded to see her husband and was granted permission. When the jailer later opened the jail corridor he discovered a number of flags on the floor, and a close inspection revealed that one of the iron bars in the window had been sawed in two. Smith acknowledged that his wife had given him the saw from which he extracted the steel bars to use as a saw.

**SNOW IN JUNE.**

Hazleton, Pa., June 30.—Snow fell in this city yesterday. The heavy flakes came down for several minutes. The weather is very cold and overcasts are worn.

By buying tea in packets it is calculated that in 1903 the British public paid 102 prices for 5,988,645 pounds of paper and twine.

## DEFICIT MORE THAN ESTIMATED

SECRETARY SHAW'S ATTEMPT TO MAKE A GOOD SHOWING FALLS FAR SHORT.

Actual Deficit Exceeds the Predicted One by Six and One-Half Millions of Dollars.

Washington, June 30.—The following statement of the operations of the treasury for the fiscal year ending June 30 has been made public: The treasury deficit for the year will be approximately \$21,500,000. These figures are subject to a slight but not material change. The last report of the secretary of the treasury estimated a deficit for this fiscal year of \$18,000,000. The actual deficit exceeds this by \$3,500,000. The receipts for the fiscal year have been about \$543,000,000—\$2,000,000 more than the receipts estimated by the secretary of the treasury in his last report. The expenditures have been \$567,500,000 or about \$1,500,000 more than was estimated. The month of June, just closing, shows a handsome surplus of nearly \$13,000,000, and reduced the deficit from \$27,000,000 to \$24,500,000. A comparison of the receipts of this fiscal year with those of the preceding year shows remarkably small changes.

## FARMS INUNDATED

San Antonio, Texas, June 30.—The Rio Grande is within five feet of high water mark, which carried away the international wagon bridge in 1899. The river continues to rise at the rate of a foot and a half per hour. The entire lowlands, with their truck farms and irrigation canals, are under water and scores of farm houses have been washed away. The town of Moral, 18 miles up the river from Eagle Pass and containing about 400 inhabitants, is almost entirely washed away.

**WILL TOLERATE JEWS.**

St. Petersburg, June 30.—Geo. Von L. Meyer, American ambassador to St. Petersburg, has informed the American consuls in Russia that permission has been granted to all American citizens of the Jewish faith to live anywhere in Russia. It is reported that the same privileges will be granted to all foreign Jews.

**QUITE SATISFACTORY.**

Paris, June 30.—It is officially announced that Premier Rouvier told the cabinet that negotiations with Germany in regard to the Moroccan question are proceeding satisfactorily.

## GENERAL STRIKE HAS BEEN DECLARED

Bucharest, Roumania, June 30.—A message received here from Kishineff says a general strike has been declared in that town. Cossacks have seized the place and are patrolling the streets to prevent the strikers from committing outrages. General Czernohue, chief of the Bessarabian gendarmierie, was assassinated in his home yesterday.

## AGRARIAN RIOTS ARE SPREADING

Bialystok, June 30.—A revolt on the part of striking farm hands has occurred in the district east of the Danube river. The strikers demand an increase in pay which is now fifteen cents a day and 10,000 have struck.

In the neighborhood of Tamasi thousands of the strikers are marching through the country destroying the crops and burning property. The police in one encounter with the strikers fired on them, killing 25.

A judge at Tamasi has sentenced 900 strikers to fines and imprisonment for breaking their contract with their employers. Laborers to the number of 1,200 have been sent to the estate of the Archbishop Frederick to replace the strikers.

## THINK THEY HAVE STRIKERS COWED

St. Petersburg, June 30.—The government has received word from Odessa that the military has succeeded in getting the upper hand over the strikers. The city authorities, however, express fear lest the rioting shall be renewed at any moment.

The government officials are anxiously awaiting news of the arrival of the Black Sea fleet at Odessa as the warships are due to reach there by this time. Officials do not attempt to conceal their anxiety to know what the crews of the vessels which have been sent to subdue the Kniaz Potemkin will do.

## MUTINEERS DESTROY

### Rioting Spreads and Desperation is Now Raging

**Uprising in Russia Now Amounts to Revolution—Peasants Join in the Revolt and 8,000 Sailors at Kronstadt Join the Strikers—Russian Government Seems Powerless to Cope With Situation and Trembles to Its Foundations.**

St. Petersburg, June 30.—An unconfirmed report has reached here from Odessa that the rioters have burned the volunteer cruiser Saratoff.

## THOUSANDS JOIN THE RIOTERS

St. Petersburg, June 30.—Advices from mutinous and riotous section today indicate that the danger to the government had not abated. In Odessa the military apparently has control ashore, but with rebellions Kniaz Potemkin holding the harbor other districts are threatened.

At Odessa the military hold the town and have shut off communication with the docks. The mutinous crew of Kniaz Potemkin established a blockade of the harbor, threatening to bombard the town at any demonstration by soldiers against citizens. At Liban 8,000 mutineers from the naval barracks are corralled by troops in the forest and attacking them with machine guns. The rioters are fully armed and making a desperate resistance. A late report says at Kronstadt 8,000 sailors have quit work and practically a state of mutiny exists.

## FIVE HUNDRED RIOTERS KILLED

Washington, June 30.—Ambassador Meyer cables the State Department from St. Petersburg, under date of June 30, 6:07 a. m., that he has just received a dispatch from Consul Heenan at Odessa, stating that five hundred rioters have been killed at that point and that the harbor front has been destroyed by fire. The battleship Potemkin was firing on the town at the time he sent the dispatch. The fleet of Vice Admiral Kruger has not arrived at Odessa at 9 p. m., the 29th. The State Department also received the following dispatch from Consul Heenan:

"Odessa, June 29—6:11 p. m.—Battleship firing on town. No fleet."

"Odessa, June 30—10 p. m.—Six officers of the Potemkin killed, eight liberated here, remainder prisoners. Fleet has not arrived. Odessa harbor largely destroyed by fire. Fifty rioters killed. Many Russian steamers burned. Battleship has remained quiet."

(This second dispatch was apparently held up at Odessa before transmission.)

## FLEET COMING TO THEIR RELIEF

Odessa, June 30.—11:30 a. m.—It is reported that a part of the Black Sea fleet, under the command of Vice Admiral Kruger, is approaching the city, although the vessels are still some miles away. The greatest excitement has been created by this report and fears are expressed as to what will come to pass when the fleet arrives.

Kruger's orders are to call upon the Kniaz Potemkin to surrender and in case of the refusal of the crew to obey this order to sink the battleship. If an attempt is made to carry out this program naval engagement between the rebellious battleship and the rest of the fleet is certain to occur. Extreme doubt is felt, however, as to the ability of Kruger to make his sailors fire on their comrades. It is generally believed the crews of the other warships will rather join in the mutiny. The allegiance of the Black Sea sailors has been questioned frequently.

## INTERESTING FACTS ABOUT ODESSA.

**Population.** Next to the two capitals, St. Petersburg and Moscow, Odessa is the third largest city in Russia, having a population of 450,000 and being the most important city and seaport in Southern Russia. Foreign population, 30,000.

**Origins.** Founded by Catherine II. in 1792, lying on a plateau 150 feet high, from which a magnificent flight of stairs named after the first Governor, the Duc de Richelieu, leads down to the beach.

**Chief Industries.** The industries of the city which are responsible for its rapid growth are flourmills, tobacco, biscuit, match, iron and machinery works. It is the principal grain exporting port on the Black Sea, 6,000 vessels calling there annually.

**Exports and Imports.** Annual exports amount to \$60,000,000 grain forming 75 per cent imports, \$30,000,000.

## IN A HOSPITAL

Crazed Parent Located Child and Shot the Doctor So That She Could Escape With It.

St. Louis, Mo., June 30.—A crazed father and an anxious mother resorted to desperate methods to remove their child from the St. Louis Children's Free Hospital yesterday, the latter finally shooting and slightly injuring Dr. H. H. Morrow, the resident physician. The shooting occurred in the ward where several children lay on cots.

Mr. and Mrs. H. L. Harris are the parents. After escaping from the hospital the father, clasping his sick child tightly in his arms, ran for home, a distance of about a mile. The child is now critically ill as a result of the shock and exposure. Fear for the welfare of the child that has prompted them to try four physicians and caused them to remove it from Centenary hospital, where they thought an operation would be performed, is said to be responsible for Mr. and Mrs. Harris' conduct.

## IS NEARLY FROZEN IN A REFRIGERATOR

Zanesville, June 30.—Almost frozen—in June—by being locked in a refrigerator car, was the experience of John Dhan, yard clerk at the B. and O. railroad, Thursday morning. He had entered the car, which had been placed on a siding, to investigate if it was empty, and while looking about some boxes Yard Conductor George Williams closed the door, fastening it, preparatory to taking the car to switch No. 4.

The car was hauled about the yards for about an hour and a half when Dhan finally made his presence known by knocking on the door. The yard crew thinking a train was inside, communicated with Detective Foreman that the offender might be placed under arrest. When the detective arrived the door was thrown open and to the astonishment of all "Jack" walked out. He was numbed by the cold but did not take the matter more seriously than to wish the incident would not be narrated in the press.

## STEEL TRUST BOYS E. AND P. RAILROAD

Pittsburg, June 30.—It is announced here that the United States Steel Corporation has purchased the Lake Erie and Pittsburgh railroad, now in course of construction between Loraine, O., and Pittsburg. Work on the road will be rushed to completion and officials of the corporation expect to handle the majority of its ore and finished product between Pittsburg and the Lakes over the new road by this time next year, taking the tonnage away from both the Pennsylvania and the Walush.

The deal gives color to the statement made by one of the higher officials of the company that within ten years the corporation will handle the greater part of its tonnage over its own road. According to the terms of the deal the Carter Construction company, of which William Kenefick is the president and principal stockholder, will receive the contract for completing the new road, which will be 115 miles in length, and built at the cost of about \$25,000 per mile.

Purchase of the Lake Erie and Pittsburg is given as one reason why there has been so much trouble between the corporation officials and the Walush railroad company regarding the connecting links between the Walush and Union Railroad and other freight roads of the Steel company and why the Steel Corporation refused to carry out the contract, alleged to have been made with the latter was to receive a large percentage of the freight from the local mines.

When the parents appeared at the hospital they were excited and demanded that their daughter be given to them at once. When told to come back later and see the superintendent, Harris drew a revolver and forced his way into the children's ward. Dr. Morrow barred his way, whereupon the crazed man shot the physician and fled. The child is now at home with his mother, but the father cannot be found.

## GAS NOTES

WORK IN THE LICKING-KNOX FIELD HUMMING.

New Wells Make Good Showing—Another Location on Elliott Lease.

(Utica Herald.)

The Benington company drilled in a two million well on the Simmons lease last Thursday evening.

The Logan has moved its rig from the Knowlton Injunction farm to the Kettle lease, where Trick and Twigg will drill.

The Ohio and Indiana gas company are to take up their line from Red Key, Ind., to St. Marys, Ohio, and relay it from the Union Station field to Lima.

The Buckeye State has set a stake for another well on the Elliott lease, 1200 feet directly east of Elliott No. 1. If that comes good, the next will be 1200 feet still further east.

The Central Ohio well on the Stanton lot below the planning mill came in last Friday morning. It showed about a million and a half, which held up to a million or more when it was tubed and it was shut in. There was 36 feet of sand.

Butler brothers drilled in a big well for the Central Ohio in Dennington township Tuesday. About 20 joints of 2-inch tubing was put in, when the head started it out. The wellmen tied it down, and it lifted the floor. Three-inch tubing was then sent for.

The Enterprise well at the south edge of town came in Thursday. It showed 21 feet of sand and three quarters of a million of gas. Nearly the entire gas pay was in the first three feet of sand, while at the Harrison well a few hundreds of feet of sand was penetrated till the sand was penetrated ten feet.

Another company has been organized for the Central Ohio in Dennington township Tuesday. About 20 joints of 2-inch tubing was put in, when the head started it out. The wellmen tied it down, and it lifted the floor. Three-inch tubing was then sent for.

## WEDDINGS.

**LINKE-SCHRIDER.**  
Mr. Frank Linke, a member of the well known firm of the Powers-Miller company of this city, was married on Thursday evening to Miss Euelah May Schrider, the charming and accomplished daughter of Mr. and Mrs. S. C. Schrider, of West Main street.

The ceremony took place at the parsonage of the St. Francis de Sales Catholic church at 7 o'clock. Rev. B. M. O'Boylan, pastor of the church, performing the ceremony in his usual impressive manner in the presence of a few relatives and immediate friends. The bride and groom were attended by Mr. Harry Linke, a brother of the groom, and Miss Debolt, an intimate friend of the bride. After the ceremony the happy couple repaired to the home of the bride's parents, where an elegant wedding supper was served, and where the newly wedded couple were the recipients of many congratulations. Mr. and Mrs. Linke took an evening train for a trip to Detroit and up the lakes. They will be gone about two weeks and after their return will be at home to their friends at 516 Hudson avenue. The bride and groom are two of Newark's most highly esteemed young people, and have the best wishes of all their friends.

**WILSON-ANDREWS.**  
A beautiful wedding took place at Rushsylvania, O., at 8 o'clock Wednesday morning, when Mr. William C. Wilson of this city, was united in marriage to Miss Helene Mae Andrews.

Promptly at 8 o'clock the ceremony was performed by Rev. J. E. Alexander, after which an elaborate breakfast was served. After receiving best wishes and congratulations Mr. and Mrs. Wilson came to this city, where they will make their future home.

**KELLY-BOUNDS.**  
Miss Florence Ethel Bounds, the charming daughter of Mrs. Mary Nagans of 252 West Main street, was united in marriage Thursday at 2 p.m. to Mr. Frank Kelly, a popular young employee of the Wehrle company, at the home of the bride. Rev. L. C. Sparks performed the ceremony. Following the wedding, dainty refreshments were served to quite a number of guests who had gathered to witness the ceremony. Both of these young people are well known and both are highly respected by a large number of friends, who will be glad to learn that they will make their future home in Newark.

**Granville, June 30.**—The following announcement has been received by friends in Granville: "Rev. and Mrs. D. J. Smith announce the marriage of their daughter, Bertha Lillian, to Mr. T. Ralph Watson, Thursday, June 22, 1935, Amanda, Ohio. At home after September 15. Buchannon, W. Va."

**ZANESVILLE WEDDINGS.**

**Infant Born With Two Heads.**  
Columbus, O., June 30.—There was born on June 26, in a family residing southeast of Columbus, a male infant, perfectly developed and weighing 15 pounds. The child possessed two large and symmetrical heads, springing from separate and well modeled necks. In other respects there was no deviation from the ordinary human form and customary arrangement of the organs. Though the infant was without life when born, Dr. Ernest Scott, curator of the Ohio Medical university, is of the opinion that it would have lived and grown had natural conditions been favorable. The body is now at Grant hospital, this city.

**Witnesses Wanted.**  
Painesville, O., June 30.—At the coroner's inquest into the recent Lake Shore railway wreck at Mentor, O., J. F. Jerome, attorney for the railroad, was questioned by County Prosecutor Blakely, apparently with a view of finding out what the road officials had done to suppress the true facts of the matter. Three important witnesses are out of the state. County Prosecutor Blakely stated they are needed to clear the matter up, and can give some startling revelations. It is presumed that they were among the passengers of the train.

**Whooping Cough in Jamaica.**

Mr. J. Riley Bennett, a chemist of Brown's Town, Jamaica, West India Islands, writes: "I cannot speak too highly of Chamberlain's Cough Remedy. It has proved itself to be the best remedy for whooping cough which is prevalent on this end of the globe. It has never failed to relieve in any case where I have recommended it, and grateful mothers, after using it, are daily thanking me for advising them." This remedy is for sale by all druggists.

### LOOKS AT FALSE TEETH

Voice Till He Got Comptroller Won't by the Bill.

June 30—The District Comptroller Grout are at \$40 for a set of false teeth bought for Charles F. Beery husband of Mrs. Beery. Mr. Jerome insists on a new set of teeth. He will be the testimony against the others who conspired in the Dodge-Morse divorce now being watched so that nobody's opposition will get his own teeth some

ready to come to the grand jury and testify.

"Throw that mush out of your mouth," ordered Roundsman Peter Beery, who has been in charge of the Dodge guards for a long time.

"Mumbedumnummummedum," replied Dodge. Then he picked up a pencil and wrote: "I want a new set of teeth. If I don't get them I won't be able to say one word to the grand jury."

Beery took Dodge to a dentist, who furnished a new set of teeth, and rendered a bill for \$40. Mr. Jerome put his official "O. K." on the bill and it went to Comptroller Grout.

"What's that? Forty dollars for a set of teeth? Nonsense!" said the Comptroller. Then he sent an inspector who looked in Dodge's mouth.

"They ain't worth more than \$20," the inspector reported back to the Comptroller. The bill hasn't been paid yet, but Dodge has the teeth.

Do it now. Licking County Creamery. 29d3t

### MOLLY PITCHER'S MEMORY HONORED

Cannon Placed Over Her Grave at Carlisle is Unveiled With Impressive Ceremony.

Carlisle, Pa., June 30—"Moll" Pitcher, renowned in history as the heroine of the battle of Monmouth, was significantly honored here on the 137th anniversary of her gallant heroism, by the unveiling of a cannon placed over her grave in the ancient burial ground here by the war department and the Patriotic Order of the Sons of America. The national heroine who was lately refused a monument through the wielding of the veto act by Pennsylvania's governor on an appropriation for that purpose, inspired the American patriots with courage in the battle of Monmouth, June 23, 1778, by jumping to her slaughtered husband's position at a cannon in the forefront of the battle, and, although captious critics have assailed her memory by reference to alleged coarseness of the remarkable woman's nature and habits her place as the feminine type of the "Spirit of '76" is acknowledged by historians.

Forty years ago the country was torn by disputes as to the resting place of "Sergeant" Molly, six states claiming the honor of holding her mortal remains in their soil, but Carlisle indisputably proved that she was buried here. Efforts have lately been made to move the remains to the National cemetery at Gettysburg, but the P. O. S. A. has induced the government and her descendants to kill the project. Pennsylvania's neglect to provide a fitting monument for this national figure will probably provoke an appeal by allied patriotic orders to the next Congress.

### ACCIDENTALLY SHOT

Little Willie Honenberger turned by the Discharge of a Bank Cartridge Pistol.

Little Willie Honenberger, aged 6 years, the son of Mr. and Mrs. John W. Honenberger, of 28 Pataskala street, was accidentally shot by a 22 calibre blank cartridge pistol in the hands of his brother Elmer, Friday about 11:30.

Elmer, who is 11 years old, had just purchased a new blank pistol and had been discharging it, when a number of curious boys crowded around him to examine the new pistol. His brother Willie was standing near, and as one of the boys reached for the gun to examine it, he accidentally struck the hand of the boy holding it. The pistol was discharged, severely burning the neck and face of the smaller boy. The little fellow was taken to the office of Dr. R. E. McCullough, where his burns were dressed.

His injuries are not serious, but had the pistol been pointed a few inches higher, the sight of both eyes would probably have been destroyed.

### DEPOT RANSACKED

Burglars However, Secured Only Four Cents From the T. & O. C. Ticket Office.

Alexandria, O., June 30—Some time Thursday night the T. & O. C. ticket office at this point was entered by burglars, who ransacked the place most thoroughly in search of loot. The money drawer was broken open but the thieves only secured four cents for their trouble. Entrance to the place was effected by means of one of the windows. No clue as to the identity of the robbers has been obtained.

### COUNCIL HELD SPECIAL SESSION

SEVERAL ORDINANCES OF IMPORTANCE WERE RUSHED THROUGH.

Horse Traders at Fourth and Main Streets Dealt Death Blow by One New Ordinance.

A special meeting of the city council was called Thursday night for the purpose of enacting an ordinance appropriating the money for the last half of the fiscal year of 1905. There were six members of the council present: Messrs. Baker, Beadle, Carlisle, Conrad, Jones and Moser and President Rosset presided. And besides the special work several ordinances ready for action were presented.

An ordinance was introduced which defined certain misdemeanors. This was for the benefit of the gang of horse traders which infest Fourth street at Main. It makes it unlawful for a person or persons to stop on any street or alley for the purpose of effecting a horse trade, or for trading other animals. The bill went through with a whirl after a suspension of rules.

The streets of Newark have been left in bad condition in many places caused by the failure of parties who dig up the pavement for laying water or gas pipes. An ordinance which will insure the placing of the streets in good condition after this work is done, and which will prevent irresponsible persons from tearing up any street or alley in the city without permission from the public service board. A deposit or a certified check of an amount sufficient to cover the cost of the repairs of any street must be left with the board, to insure the restoration of the street to its former condition. This ordinance was passed after a suspension of the rules.

An ordinance was introduced and passed to issue notes in the sum of \$25,000 for the paving of Stanbery and Locust streets. The appropriation ordinance, providing money for the latter half of the fiscal year of 1905, was introduced and passed.

The old electric light machinery, which is lying unused at the light plant, will be sold, in accordance with an ordinance introduced and passed last night.

The West Main street paving resolution was read the second time.

J. M. Browne and sons were given permission by a resolution to close up an alley in the rear of Second street for two months while repairs are being made on the building.

Dr. Wyeth was given permission to tap the Granville street sewer.

## FOR DAYTON'S FIRST CITIZEN

GREAT WELCOME IS BEING ARRANGED BY PEOPLE OF THE GEM CITY.

Mr. Patterson Will Arrive Home Sooner Than Expected—City is to be Decorated.

Dayton, O., June 29.—The day of the novel public reception which Dayton will give John H. Patterson on his return from a trip around the world has been changed from July 11 to July 2. Mr. Patterson arrived in San Francisco June 27 after a quick trip across the Pacific from Japan in sixteen days. Important business matters and his anxiety to get home after so long an absence led Mr. Patterson to start east at once, and Dayton, nothing daunted by the limited time left for preparation, decided at once that a little extra effort was all that would be needed to insure Mr. Patterson the finest as well as the most unique civic demonstration ever accorded a private citizen.

Accordingly a batch of telegrams was dispatched to the various concerns supplying the thousands of yards of bunting, the flags and the coat-lapel buttons for the occasion bidding them rush through the orders. Meetings of committees were called and within six hours after the receipt of word that Mr. Patterson was on his way eastward, everything was going forward as smoothly as if the plans had been made originally for July 3 instead of over a week later. It was an interesting test of the thoroughness of organization of the committee of Dayton business men who are handling the unique celebration.

Mr. Patterson will be met by the Patterson Day Executive committee headed by Mayor Snyder, at Richmond, Ind., on Monday. Escorted by this party he will come to Dayton on the Pennsylvania, arriving here at 4:45 p. m. At the Dayton Union Station the party will be met by a delegation of sixty leading business men appointed by the mayor. And from the station to the Patterson town residence Mr. Patterson's progress will be one grand ovation.

Through streets elaborately decorated with crimson and gold, the colors of Mr. Patterson's business organization, the parade will pass up Main street through the business district and on to the residence part of the city. Stores and factories have promised to close for the occasion and thousands of Dayton's citizens will line the streets waving flags in honor of the man of the hour.

The exercises at the Patterson home will be simple but impressive. They will mark an epoch in municipal history, for it is not recorded yet that any American city has ever arranged such a demonstration in honor of a private citizen or presented him with a splendid loving cup, such as Dayton will give, a testimonial of the esteem of its citizens. Contributions toward the purchase of the cup have been received from all classes, showing how general is the feeling that Mr. Patterson has done much for the city's growth and prosperity.

At the Patterson home brief speeches of welcome will be made by the mayor and a few other leading citizens. The loving cup, a massive silver affair nearly two feet tall, will be presented to Mr. Patterson. A chorus of two hundred school children specially drilled for the occasion will sing songs of welcome and a band of 150 pieces will play.

One of the most interesting features of the celebration will be the part which the women will play. The women of Dayton, appreciating what John H. Patterson has done for the working women of the world, have prepared a handsome memorial engraved upon parchment and bound in leather by local craftsmen, reciting Mr. Patterson's achievement and thanking him for what he has done.

It is almost a year to the day, since Mr. Patterson left New York on what was to be a trip around the world. Originally the trip was planned merely with the object in view of recovering his health, but after months spent in Europe, he finally decided to circle the globe. A year ago, suffering from the effects of too close application to business, Mr. Patterson decided upon a trip abroad, and set sail from New York on June 29. He was accompanied by Horace Fletcher, the health specialist, Dr. H. Bowditch, of the Harvard Medical School, and Prof. Russell H. Chittenden, the head of the Sheffield Scientific School of Yale University.

After traveling through Europe several months, Mr. Patterson spent some time in a villa in the mountains of northern Italy and here to a large degree regained his former good health. Later in the summer he went to England, where he took a number of horseback trips through the north of the island, visiting places of historic and scenic interest. During the fall and early winter he attended and con-

## AT THE CAMELS CARNIVAL NEXT WEEK

The very best attraction and well worth seeing is the trained horse, Col. Fred. His ability to exert human reasoning power is past the average comprehension and he how he manages to perform the feats he does is simply marvelous. He can pick out a color called for, he can make change from a cash register the same as a person, he takes a piece of crayon between his teeth and figures upon a black board, adds, subtracts and multiplies, he puts his head into 18 inches of water and picks out a silver coin, he is a perfect dancing horse, he dances and kicks in perfect time with the music and he is the only horse in the world that plays a musical instrument.

he plays different selections on a set of chime bells. He is able to answer almost any question asked him and does many other wonderful things that a horse has never even tried to do before. Special scenery is carried of a cottage and barn. After the master has put the horse in the barn he returns to the cottage and goes to bed, the mother is out and the baby is in the cradle, an alarm of fire is given, the horse hears it, breaks out of the barn, forces his way into the house, wakes up his master and rescues the baby himself. It is the most thrilling and wonderful performance that a human being ever witnessed. It is worth many times the price of admission to see Col. Fred.

## GROUND SETTLING UNDER CHICAGO; BIG CATASTROPHE IS PREDICTED

Chicago, Ill., June 30.—Startling conditions in the downtown district were revealed yesterday by the sudden settling of the ground under the Chicago streets and buildings. The trouble is attributed by engineers of the traction companies to the construction of the Illinois Tunnel Company conduits under the streets. The prophecy of a catastrophe was made at the office of Chief Engineer H. B. Fleming, of the Chicago City Railway Company, with the announcement that the highway at Jackson boulevard and High street had sunken 10 inches in two nights.

Engineers for the Union Loop Company have known for a year that the earth between the tunnel and the street was giving way in many spots, and as a result it has been necessary to jack up the structures in several places.

Depressions have appeared in 10 different places in the last few months, which threatened skyscrapers and other buildings on floating foundations.

"There is going to be an awful finish if something is not done to stop this tunnel work," is the warning from the traction engineer's office.

International Affairs.  
London, June 30.—Should the report that the Kiaz Potemkin is homeward bound be confirmed, the incident will precipitate a critical international situation, and the foreign consuls there will almost certainly demand the protection of warships, if they have not already done so, and as the Kiaz Potemkin is a Russian ship, the British navy may be called upon to protect it.

FLYING SNAKE.  
Cross Between Bird and Reptile Captured in Virginia.  
A most remarkable and uncommon "flying snake" that was captured and killed at "Berry Plain," the home of John S. Dickinson in this county, a few days ago, has attracted wide attention and excited no little interest, says the Corners, Va., correspondent of the Chicago Chronicle. The curious reptile was first noticed flying about in the air with several feet of its horrid snakeship dangling around, presenting the appearance of an ordinary snake attached to a strange looking bird.

It was finally killed and measured and proved to be five feet long and about one inch in diameter of body. It had perfect wings of good size and these were covered with feathers. Behind the head, where the curious thing made its unceremonious advent and exit, was a small, pointed, and one of the most peculiar features of the creature.

After traveling through Europe several months, Mr. Patterson spent some time in a villa in the mountains of northern Italy and here to a large degree regained his former good health. Later in the summer he went to England, where he took a number of horseback trips through the north of the island, visiting places of historic and scenic interest. During the fall and early winter he attended and con-

Anticipate Pacific Settlement.  
Berlin, June 30.—Ambassador Bismarck, who was received by Chancellor von Bülow, made a further communication from the French government which is regarded by the foreign office as another step towards an adjustment of the differences between the two governments. The official opinion continues that France will agree in principle to the Moroccan conference and that secondary questions will ultimately be settled satisfactorily.

Town Burns.  
St. Louis, Wash. June 30.—The town of Montebello, on the southern shore of Lake Michigan, has probably been destroyed by fire. The offices of the St. Louis Post-Dispatch, which arrived from the post office, report that the place was burned on the night of June 26.

Colored Man Hanged.  
New York, N. Y., June 30.—Berkeley, a colored man, was hanged today in the state prison. He was charged with the murder of a woman, who was found dead in a rooming house in the city.

The Jews celebrate this year the 2500th anniversary of their settlement in the United States.

## GIANT HOGG IS FINALLY CAUGHT

The Crookston, Minn., correspondent of the St. Paul Dispatch says:

"The monster hog which has for years past been the terror of the Cass Lake and Bemidji small boys, and which I recently succeeded in securing a picture of after several weeks of patient work at the customary lair of the brute, is a long, lanky, ungainly bodied monster, with a head similar to that of the hippopotamus, only horned. The back of the hog is ribbed or lined with protruding spikes about 14 inches in length, which extend clear to the tip of the long, broomstick tail. Two monster horns, about eight inches in diameter at their base and sharp as needle points at their tips, lend a ferocious aspect to the brute's appearance, which is awful to behold. When angry the hog shakes the head savagely, and shrubs and trees within range of his ugly horns are slashed to shreds. When in motion the hog assumes a gait somewhat similar to the loping of a kangaroo.

The rear feet have three protruding claws some six inches in length and as sharp as an eagle's talons. The fore feet are also equipped with talon like claws, but the joint is somewhat shorter and the first joint is higher up on the limb than it is in the rear portion of the beast's anatomy. One very peculiar feature of the hog's physique is a lack of one eye. There are two sockets, and when the beast is dozing it would appear as if two eyes served their usual purpose. When aroused, however, the right orb does not open, and it is thought that in some battle with beasts of the forest or with man that the animal lost the member. The one eye which serves is about the size of a quart dipper's bottom and of a deep red during the day time and a glowing green at night.

So far as can be ascertained it is believed that the animal is of neither sex and that it is the only one in existence of its species. In habits and diet it much resembles a rhinoceros and makes its appearance in the open but twice a year, once in the fall and again in the spring. Persons who have seen the animal at night and told of its horrible appearance have been believed insane and never before has the story of the beast's existence been actually credited by reasoning people of Cass Lake and Bemidji. Long stories have been written about the supposed myth, but my picture, secured after weeks of vigil at the animal's customary haunts, has set at rest all doubts as to the reality of the yarn and the existence of the hog.

A company may be organized at Cass Lake for the purpose of eradicating the community of the presence of the beast and as well capture one of the biggest amusement and sideshow freaks ever heard of in the world. Certainly if the hog is captured and placed on exhibition there will be no better freak of nature in the museums of the country. The ferocious nature of the beast, however, will make the undertaking extremely hazardous, and if the project is undertaken, lives will be risked in the capture. So far as known the hog has contented itself with a diet of fruits, grain, grasses and fish, and has not molested cattle or human beings unless aggravated.

William C. Gates, better known as "Swiftwater Bill," one of the most noted characters of early Klondike days, is denouncing the second divorce suit brought by his third wife. Gates in the early days of Dawson was a much-talked-of person because of his marriage and strange courtship. The wife who is now suing him for divorce brought suit last April, but the court refused to grant a decree and no provision was made for the two children of the marriage. At the present time Gates is working some rich claims and is reported to have again made a fortune. Mrs. Gates, formerly a dance hall performer, is the younger of two sisters whom her husband married.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive in its nature. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this advertisement in this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## Peace Plenipotentiaries.

Washington, June 30.—Diplomats in Washington are looking to Oyster Bay for the official announcement within the next few days of the plenipotentiaries who will represent Russia and Japan at the Washington conference. The president is in communication with the Russian embassy and the Japanese legation by telegraph, and it is learned that progress is being made, but no definite date for the announcement is suggested. Mr. Pierce, the acting secretary of state, conferred with Mr. Darling, the acting secretary of the navy, regarding the entertainment of the envoys on board the Mayflower.

## Yale Won.

New London, Conn., June 30.—The Yale "varsity" crew wrested victory from Harvard in the four-mile race on the Thames by the length of an oar. After rowing four miles with the shells lapping and the graceful prows zigzagging between strokes, the Yale boat crossed the finish line three-quarters of a length ahead of the crimson. Yale won by two and one-half seconds. The blue time was 22:35 1/2; Harvard's was 22:36. Such a race has never before been rowed in the 27 years of racing between these old rivals.

## British Steamer Ashore.

Constitution, Chile, June 30.—The British steamer Tropic is ashore 15 miles north of Constitution. It is feared she will become a wreck. Ten of her crew have been landed, two were drowned and the remainder are on board the steamer.

## Secretary Hay's Condition.

Newbury, N. H., June 30.—Secretary of State John Hay, although still confined to his bed, continues to gain steadily. He appeared much refreshed and considerably stronger.

## Shot His Father.

Marietta, O., June 30.—Edgar Uhl, Jr., gave himself up to the sheriff, saying he had killed his father in the latter's saloon. He had wandered about the city until he sought the sheriff. Young Uhl said he shot his father to save the other members of the family, whom his father had often threatened to kill.

## Infant Swallows Poison.

Cincinnati, O., June 30.—Evelyn Green, 4, of 549 Hopkins street, drank the contents of a vial containing an ounce and a half of carbolic acid. She was discovered by her parents a moment later rolling on the floor in terrible agony. An hour later she died, despite all efforts to save her life.

The Pennsylvania railroad was chartered in 1846. Construction was begun in the following year and the road was opened in 1853. Trains to Chicago were first run over this road in 1858.

## MOB IS ORGANIZED BY IRATE WOMEN

To Avenge the Brutal Eviction of a Hard-Working Woman—Riot in West Hammond.

Hammond, Ind., June 30.—Because of the brutal eviction of Mrs. Valentine Mika from her home last night the village of West Hammond was the scene of a riot and several people were seriously injured. Mrs. Mika, who was in a delicate condition, was kicked and handled so roughly that her life is despaired of. Frank Locks, one of the evictors, was so badly beaten by the furious neighbors that his condition is critical. Constable Gzally, who served the writ, escaped with his life, and Peter Mak, the village president, who is charged with kicking the unconscious woman, escaped from the mob by using the horse and carriage of a doctor, brought to render medical aid to Mrs. Mika.

Valentine Mika went to Minnesota some time ago leaving his wife and three children to look out for themselves. The wife took in washing, and it was at the conclusion of a hard day's work that the three men called upon her and threw her out of the house she had lived in for four years. Mak is accused of kicking her into unconsciousness. After the men saw what they had done, Dr. Kelly, of this city, was summoned to care for the woman, the men first throwing all the woman's furniture from the window. Neighbors went out to her assistance. News of the brutal affair spread like wild fire and soon a mob of 500 people gathered to avenge the deed. Frank Locks was dragged out of the house and terribly beaten by women.

He would have been lynched had it not been for the help of friends. Men applauded and cheered the women while they were assailing him. Citizens are organizing to throw Mak out of office. The feeling against him is intense.

## MISS TUCKER TO RETURN TONIGHT

Miss Helen Elizabeth Tucker, daughter of Mr. and Mrs. John Tucker, of this city, will arrive tonight from Quebec, Canada, where she was recently graduated with great distinction from the Ursuline convent. Miss Tucker concluded her course at the convent one week ago and since the commencement exercises has been visiting points of historical interest in and about Quebec. The school which Miss Tucker has been attending is the oldest educational institution for women in America, having been established in 1639.

## AMUSEMENTS

The Robinson Comic Opera company will open the season of summer opera at Idlewild Park on Sunday, July 2, in Richard Stahl's masterpiece "Said Pasha." This opera is well known to our theatre goers, and is full of bright and sparkling music and funny situations. The Robinson Opera company comes to us very highly recommended and is composed of several well known artists. Miss Minnie Emmett, the prima donna, possesses a beautiful soprano voice and in connection with a fine stage presence and a wonderful power of magnetism is one of the foremost comic opera prima donnas of today. Special attention has been paid to costumes and stage settings and we are promised a season of fine opera.

"Said Pasha" will be presented the first half of the week, being followed by "Fra Diavolo" on Thursday, Friday and Saturday evenings.
